CPSC SERIES

SALT WATER CHLORINATOR

THE MOST

ADVANCED

SALT WATER POOL SANITIZER

IN THE WORLD!

Why Saltwater Chlorination?

- Irritation to eyes and ears is eliminated
- Unpleasant taste and odour is greatly reduced
- No more need to store expensive and hazardous chlorine
- Fully automatic chlorination
- Sparkling clear pool water – every day
- Suitable for all pool surfaces

How does it work?

Salt is added to the pool water, 0.35% salt content. This slightly salinated water then passes through the electrolytic cell and this produces chlorine gas, which prevents algae and purifies the pool or spa.

3Year
2 years full
1 year pro rata

Advanced electrical design ensures phosphates do not build up around the cell and reduce output!

Powerful Features

- 3500 P.P.M. salt
- LCD digital display
- LED indicator lights
- High and low salt fault lights
- No flow sensor and fault light
- Self regulating function if salt content is too high
- Fully weather protected
- Winter mode for cold water operation
- SuperChlor mode for boosting chlorine levels during peak times
- Touch pad controls that provide easy setting
- Fully automatic operation – even when the owner is away
- Easy installation to new and existing pools
- Reliable and durable for long lasting performance
- Digital time clock with battery back up timer as standard
- Cell has push on water proof connectors for simple exchange of cell
- Advanced high grade U.V. stabilised plastic control unit
- Large alloy heatsink for heat disipation and corrosion resistance
- Water temperature sensor for accurate salt reading

Model	Pool Size (Gallons)
CPSC08	4,000
CPSC16 - Above ground	20,000
CPSC24	26,000
CPSC36	40,000

3Year
2 years full
1 year pro rata
